

ExpressShelf™ with MasterSuite® Towers

Pre-finished. Solid. Fast.

The ExpressShelf™ brand pre-finished shelf and rod system provides a fast and affordable alternative to traditional built-in-place painted-MDF plank and pole systems.

With its intelligent patented hardware, ExpressShelf installs quickly and easily with basic tools or drill template and eliminates the need for ladders, caulking, and painting.

Beautiful and functional for every room in the house

ExpressShelf is ideal for walk-ins, reach-ins, coat closets, laundry rooms, pantries, and linen closets. It utilizes ClosetMaid's MasterSuite® closet rod and color finishes to provide additional design and upgrade options for any style home or storage project. The system is available in basic laminate, melamine, and premium ventilated wood shelving.

These features, combined with easy to install hardware, allow for consistent fit, design aesthetic, and space optimization with the ability to add on to them in the future.

New options expand design flexibility

With new hardware options that enable full walk-in designs, wall-to-wall or wall-to-open shelf configurations, extended shelf or closet rod applications and corner solutions, designing with ExpressShelf is now more flexible and versatile than ever before.

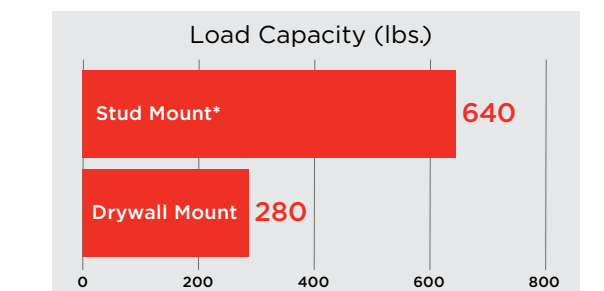

Superior productivity and quality

Compared to a traditional plank and pole closet build-out, ExpressShelf can be installed at an approximate rate of 1 minute/ft*. That's 10 minutes for an average 8'-10' reach-in closet with a single shelf and rod configuration.

Key system highlights:

- Multiple shelf types: laminate, melamine and ventilated wood
- **No caulking. No painting.**
- Installs after paint
- Ideal for U-shaped or L-shaped closet designs
- **Continuous-slide corner** solutions
- Extended length shelving and closet rod applications
- Allows **pre-fabrication off-site**, reducing material handling on the jobsite
- Carries ClosetMaid's free Replacement Policy
- Expanded design options when combined with MasterSuite
- Finishes match MasterSuite

Meets ANSI-BIFMA functional and proof load requirements

*8'L x 14"D single shelf or shelf with rod; with backwall channel and brackets stud mounted, per manufacturer's installation instructions for wall-to-wall configuration.

If a ClosetMaid product does not give you complete satisfaction when installed in accordance with the manufacturer's instructions, it will be exchanged free of charge. Please note that only the unsatisfactory part in a multi-piece product will be exchanged.
