

Pre-finished. Solid. Fast.

ExpressShelf is a pre-finished shelf and rod system that provides a faster, more affordable alternative to traditional built-in-place painted-MDF plank and pole systems.

With its intelligent patent-pending hardware, ExpressShelf installs quickly and easily with basic tools or drill template and eliminates the need for ladders, caulking, and painting.

Beautiful and functional for every room in the house

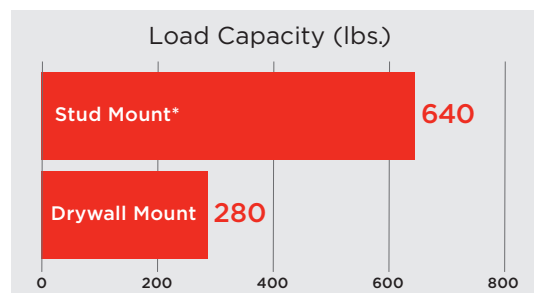

ExpressShelf is ideal for reach-in, walk-in, coat closets, and laundry rooms, and where only a shelf is needed in linen closets and pantries. The system is available in basic laminate or melamine option and utilizes ClosetMaid's MasterSuite™ top shelves and closet rods to provide additional colors or upgrade options for any style home or storage project.

These features combined with easy to install hardware allow for consistent fit, design, and space optimization with the ability to add on to them in the future.

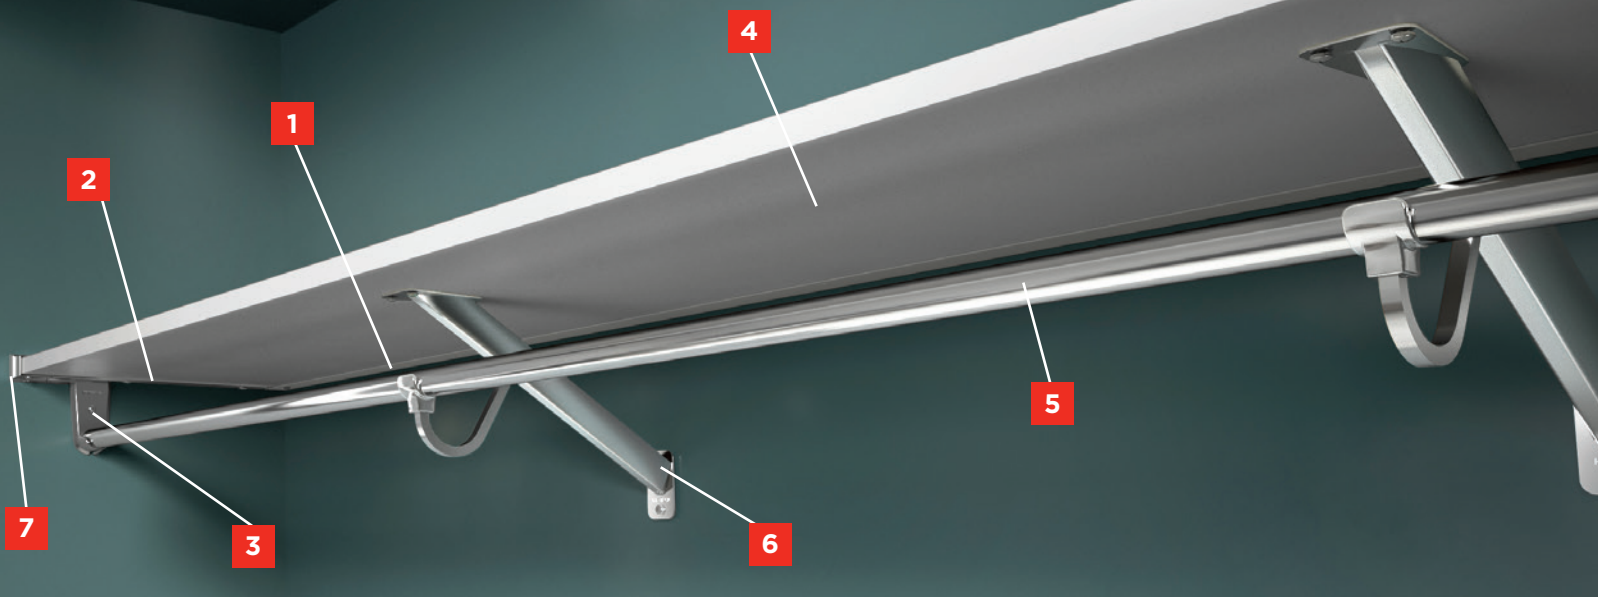

Superior productivity and quality

Compared to a traditional plank and pole closet build-out, ExpressShelf can be installed at an approximate rate of 1 minute/ft. That's 10 minutes for an average 8'-10' reach-in closet with a single shelf and rod configuration. Key system highlights:

- Installs in 10 minutes*
- No caulking
- No painting
- Allows pre-fabrication off-site, reducing material handling on the jobsite
- Installs after paint
- Provides a modern and sleek look that integrates with other ClosetMaid systems
- Carries ClosetMaid's free Replacement Policy
- Qualifies for Builder Programs
- Meets ANSI-BIFMA functional and proof load requirements

* 8'L x 14"D single shelf or shelf with rod; with backwall channel and brackets stud mounted, per manufacturer's installation instructions for wall-to-wall configuration.

Part No.	Component	Features	Carton Qty.
